During this phase, the installer installs a boot-loader, system files, and other files that can't be updated as a result of the update. Windows 10 includes a special mode for this installation: *W10_SemiSync mode*. **Windows 10** with the *W10_SemiSync mode* installation option enables semi-sync installation for Windows 10 systems. Semi-sync installation is similar to a full-sync installation, except that the installer does not perform all of the update procedures. Instead, the installer installs only the files that can't be updated as a result of the update. Semi-sync mode uses the [Windows Installer (WiX) 3.11](https 6d1f23a050
