Visually appealing and easy to use, Musigator combines a browser with a media player to stay safe and enjoy audio files on your computer. Visually appealing and easy to use, Musigator combines a browser with a media player to stay safe and enjoy audio files on your computer. Easy to use, it's important that browsing doesn't interfere with other activities. You'll have to configure a few options and find out where the controls are, and that's all. You can, however, set a search engine and bookmark your favorite

sites. In fact, you can also quickly find the ones you're visiting on the tool bar, making sure you don't forget anything. It's easy to navigate, and tabs are just one click away to access any content you have open, while bookmarks are neatly organized on the tool bar. You can also quickly filter a web page, so you can stay safe. History and other tools are also used to maximize your comfort level.
