Butterfly Trail is the ending theme song for Grisaia Phantom Trigger Story - Game Title "Grisaia: Phantom Trigger" The protagonists make a journey across the world of Grisaia, whose souls are contained in a virtual world. There, they must eliminate the Goddesses who seek the absolute power of the world. About the Story The story of Grisaia: Phantom Trigger begins long, long ago. In the past, there was a world that created people... Many witches called "Houju" come from the Digital World to the physical world. The Houju are divided into two groups: The "Aries" who can transform people into animals, and the "Taurus" who can separate people into components. Only the Houju "Juyou" can break the boundaries between the two worlds. The protagonist, a warrior who is the only Houju with her original body, lives in a village. One day, the protagonist is saved by an old teacher called "Highness of the Sun", who is in the Houju organization. Highness of the Sun provides the protagonist with the best technology for transforming people into Houju. She does not tell her name, but the protagonist gives her the alias "The Goddess". Having learned to transform people, the protagonist encounters a rival Houju, "Highness of the Moon", who is extremely beautiful. In the online virtual world, the protagonist goes on a quest through 12,000 years of history to fight the God of the Moon and the Goddess of the Sun. Opium, the God of Abominations, has placed the Earth in suffering under his crushing heel. The Orian Empire becomes the playground for the worst kind of cruelty and murder, which this twisted reign is infamous for. Now, after a decade of peace, the Prince has returned from his long pilgrimage abroad with some new ideas for the people of the empire. Some of his new ideas include his vaunted fabled city of Kalamath. With his plans to build a new world center, he has an even greater reason to hunt down the legendary Mask of Dreams, a powerful talisman long said to grant its wielder control over the undead, the elementals and the spirits. However, before he discovers that the Mask has already been found, it has already fallen into the hands of an unknown thief, whose dark desires the Prince will not let go. Players will take on the role of Selina, a young girl from the Orian Empire, on her quest to find the legendary Mask. Following clues that point her to the forbidden city of Kalamath, she eventually reaches the city, where she is met by the mysterious and enigmatic Lord Noire, who wants to help her on her quest, so she can find the legendary Mask of Dreams in the castle. What's new in Death World:

Is Out-puky! for some reason Gabe asked me to read this out loud so if any of y'all want to see it you can just read it down below okay? The Ether Loop Soundtrack is coming along! I hope you're all keeping up with us, I'm sure a lot of you have questions about it but I'm going to lay it out as best I can so I think that we'll all be able to get as much out of it as possible. Right now I'm about 50% into the soundscape, and I can't believe I haven't been doing that already. I keep thinking I will start sooner, and then I usually die because I'm not letting the characters breath and I have a bunch of questions in my head about how things will play out and that's a distraction - I know! It's a terrible thing, and y'all can wag your fingers and call it laziness and laziness. I mean, it's just that sometimes I write about the characters so much that things just happen and I forget that they can't speak. I don't know why this is happening. I know it's a huge deal, and I know I'm going to have to explain what's going on and why it didn't occur to me until now to just lay out the facts as clearly as I could, but I'm afraid to do that for fear that I'll be a terrible facilitator of information and I'll bore the entire internet with the minute details of my my life story. So, for those of you who want more information, for those of you who want to say "Nah, I can imagine the rest of it in my head" you're in luck - this is going to be a very informative read, and I do not apologise for it because words help us get through life, they help us understand ourselves and they help us have some sort of understanding of the things that happen to us. Even though I'm writing a fictional story, I still am SO grateful to be taking it seriously, and I'll make sure that I do my homework and explain things in a way that makes sense so y'all can enjoy my work. So, this paragraph
