@NoeRigga I am on character name Wolf... I have a character name Wolf...- A Tragic start but very important in the actual story. Don't expect to find a cliché storyline here. I always love stories where you are just forced into the situation to gain a feeling of closure. Funny I have to be force to kill and do insane things but not other's (Did I just say "other's"? Who said "other's"). Now the story is a real one! What was that epic intro I got to? Just when I thought it's going to be a noob story it does. I love how the story starts off with... "You are the chosen one who will fight the evils that plague mankind." I wonder what he means? This is going to be a fun ride! I know I am looking forward to the story more than the game. I wonder if the rest of the game is amazing? I have played a lot of games similar to this but NEVER did I encounter a game... "This is going to be amazing!" PLAY THE GAME The Online is really weird and it's just around the corner for me to get used to it... Plus I have no idea what is going to happen in the story. The story is currently ... "You are going to fight Tarmain in hopes to save mankind." Nice variety of requirements and different ways of fighting if it is a choice to fight or not fight or save your own life. The story is going to be... interesting. The world is very vast. This game is what brought up a whole new world to me. What is this game made by? I am assuming it's a company with a similar way of doing things but I am not sure. When I find out what the company is I may add a company reference. Well no one here can see me so I am going to go to bed and play the game tomorrow. GO TO BED Alright guys have a good night! If I say anything before I am out of bed then I will sleep bff6bb2d33

Q: Move site collection and sub-sites to new web application I have a requirement to move a single site collection and all of its sub-sites to a new web application. I am using Sharepoint 2010. Can anyone kindly suggest how this can be achieved without losing content?

A: In this post, Adam mentioned that this is not possible and he is the one who implemented this. The only option that you have is to use stsadm to export the content databases of each of the subsites and then reimport these databases to the new webapp.

In a written letter to the U.S. District Court of Appeals for the Third Circuit dated February 18, 2020, Sean Harker, writing on behalf of House Speaker Nancy Pelosi, argued that the House of Representatives was a proper defendant to two lawsuits filed by President Trump alleging that the House of Representatives was unlawfully subject to congressional subpoenas. Harker wrote that the President's allegations that the House was without the authority to conduct investigations is "without merit," "represents an improper use of the courts," and is "an unprecedented, unconstitutional, and invalid attempt by the President to block congressional investigations into official acts." Text of the letter by Sean Harker, dated February 18, 2020, on behalf of the Speaker: Letter to the Court in the Matter of Donald J. Trump February 18, 2020 The Honorable Jon D. Brand, Clerk Third Circuit Court of Appeals P.O. Box 544 7 th Floor Harrisburg, PA 17105 Dear Mr. Brand: The Honorable Mr. Justice Anthony Kennedy's decision in the matter of House of Representatives v. Mazars in the Supreme Court Letter Re: Common Law of the Congress February 6, 2020 William B. Schultz Office of the Clerk Third Circuit Court of Appeals 100 Maryland Ave, SW 4 th Floor Washington, DC 20543 In response to the Supreme Court's order to file a response to the Petition for Writ of Certiorari, the Speaker moved, as President of the House

HN: How can I justify paying extra \$\$ for startup Android device? - mend So my girlfriend recently got Nexus 7 and she loves it, I just android apps. My problem is, I have smartphone (Huawei Ascend which has huge lag so I can't install most of android apps. So I posed to her that pay for cell phone which will surely have more age than mobile phone.

problem is she like Galaxy Note 2 very much (Actually all android rtphones are too big for me). " So there are a lot of user interface of roid that I like in Galaxy Note 2".

what would you tell her? ===== kumarm Go to geekhack.com and them. They will ask her question about which phones would be er for her, but this is just hypothetical questions asked after asking what she likes. Or talk to her friends and ask them what are phones t for new age, older females users. I think people have phones ause they like it and really want it for security and privacy reasons 's smart to leave it to them to decide the brand of phone to buy e Casseres There are great apps (and developers) for the smaller ces, but you have to look at the quality in which you expect an
