This issue is brought to you by fans for fans. Some of the rarest experiences in gaming are when a person find a game that they immediately felt an intimate connection with and wanted to bring it to a wider audience. No Game or Setting is Safe (I hope) from this exposure, and so I fear a somewhat overwhelming dose of original material... But Read more: *134 pages of vanilla goodness!* (You may not want to read it all)... The PDF that will be released Dec 20, 2013 now has some more RPG stuff added and works with Fantasy Grounds! Player/GM option for Role-Playing Screen and some Combat too. Still know it's missing Gunpowder but slowly making that change. NELLOWO: So, you're a pon'saki, up there in the sunlit upper regions, and you're all just... just hanging out? WAITING?!?

MEGATRON: I'll have you know, old chap, that I have been doing a LOT of waiting... very distracting even. And holding off, I might add. So much waiting. Waiting is sooo you, you know. I'm doing a serious load of custom page kits for Fantasy Grounds. The new fun and rules-set that will be on FG back in January are VERY DISTINCTIVE. They will be something new in the line of the Fantasy setting from about Game Store! Helpful Links PORTFOLIO//Full Baxexx
