FIFA is available for Nintendo Switch and PlayStation 4, Xbox One. News [edit] See the full list of changes in the FUT update 2018-03-26: According to the latest update, the most important modifications in the game are as follows: My Player 2.0 [edit] Players will be able to take advantage of key concepts of human intelligence, namely learning and modelling. By learning from his teammates, the player can become a more complete and effective footballer. On the other hand, he will have a great advantage from modelling: this way, the player can adopt the most effective pattern from what he has seen around him. Team Talk [edit] Players can choose the phrase they use when communicating with the colleagues, a unique and personal item that belongs only to them. Matchday [edit] Each team will have a unique mask, chosen by the player for his side. The player can also choose other parameters such as: flag; season; captain; spirit; kits; stadium; training ground; secret symbol; and squad numbers. Evolving Attribute Ratings [edit] Every attribute will evolve during the match, driven by factors such as: Current player performance (and performance of the player's teammates) Opponents strengths and weaknesses Chance of scoring a goal Favourable or unfavourable match situations The player will evolve in all attributes by learning from the tactics used by his bc9d6d6daa
