**: Tea for Dummies Customers either love tea or hate it. A common question is, do I enjoy it? (Yes.) Some white teas can be super refreshing, but others (I really need to be more discerning about that), can be like drinking a cold glass of iced peppermint latte. If you read my post about tea iced drinks, you know that I like my iced stuff a bit sweet, and there are no shortage of tea enthusiasts who will tell you**

---

that anything that is sweet is totally out of style. What's good about that is that you are free to enjoy it any way you want. But if you want my take on tea, you're going to have to get use to it the way I drink it. Tea is simply hot tea, and when I'm out to eat or do something else, I'll have a cup of iced tea. How I like it depends on what I'm drinking. If it's sweeter, I'd rather have it like the picture below, with some honey. If I like it lighter, then I'd opt for this. Typically, when I'm on the street, I like something a bit more spicy. This one is less sweet, with less honey. Either way, it's good iced tea-I can't stand too much sweet tea at this point. I'm thankful my husband doesn't like it nearly as much. As the story goes-it's fairly easy to ruin a good cup of tea. As I said in my post about mint tea, the way tea is marketed is a real turn off for me. I can't just order iced tea off the menu unless I'm in a food joint, and I only drink iced tea when it's in the summer or a heatwave is getting to me. Another negative is that there is very little photography of the actual dish the tea is served with. Very minimal shelf space is dedicated to tea, and a huge percentage is just tea and water. So this is a good thing. About The Author Catherine is the founder of Rebelle Canvas. She grew up in a family of artists, and has painted for her entire life.
