Rapidshare Pro 3.1.0 Full Version Q: How do I get an all caps "Load Screen" in Minecraft SE Beta? Possible Duplicate: Where did Minecraft's Load Screen go? I am playing Minecraft on Windows 7. The load screen that starts out with the game logo is all caps; I want to have the loading screen (while the game is trying to load) in all caps, just like the logo is. How do I do this? And if there's no way to do it, is there a way to resize the screen so that the logo is not so tall? I like my screen space. A: This is because windows is using its own font which is not full screen (you'll notice that the game logo is blurry, but fonts use the same normal font rather than get fuzzy when scaled down). Simply changing the font in your theme should fix the problem, or you can also add a font to windows that has the same character as the game logo: Windows 7: Right click on the desktop > Properties > Personal > Change Desktop
