What's new in Elden Ring:

BEYOND

THE ONLINE RPG. Create your own character and have fun in the Lands Between. Experience thrilling online battles where you strike enemies with skills and combat!

Explore a very alive world.

THE DESIGN. A huge world, which is like the interconnected organization of a chessboard, an open world like a living room. The scenery is vast and magnificent, and the environment in which the hero and monsters live has a strong sense of reality. Hidden dungeons, secret dungeons, and sprawling plains are presented.

BATTLE.

You will relish online battles that recall the breathtaking action of a film. Thrilling and lively graphics, extremely shallow learning and user-friendly online battle system, and fast and dynamic battles will leave you startled.

USER FRIENDLY.

A high presence of players online, easy implementation of online features with minimal required information, low system requirements and smooth online operation. Learn powerful battle skills, and relish online battles. You can also hang out while waiting for your turn to play, or play after waking up, or play in your own free time.

REMOTE ENJOYMENT.

You can have a glimpse of the game through various terminals at a distance. Not only in a graphics display, but you can also play the game by observing the various actions happening on the server. In addition to that, you can get notifications about upgrades, monster's boost, and skills, as well as server notices and notices from other players through one of the terminals.

"Past Smiles".

As the title implies, a new world, and a new fantasy that is not given to any other games. A plot that is full of twists and sudden changes. A story full of classic fantasy elements created anew.

<u>"THE PARK</u>

A place, where we are ready to remember our childhood and feel excited. Whether to say it or not, a reason why the Lands Between was created was for purpose
