least two knives with you even as you would have entered a bizarre world within a character that was totally different. Lasers, claws, claws of the gods, radial saws, chainsaws. Although there are so many options, but the first three will be the best choices. They are less likely to break and will not require much space. Some of them require more time and money from you. Like for example the first three weapons on the list. They are the most expensive choices. The second choice, is not less expensive than the fist and foot combo but it must be the last choice because it has no chance to be great on the first floor. It is the axe. Its advantage is that it can be used almost everywhere, in darkness and daylight and it has enough power to cut down everything and even a fast enough to decapitate. Of all the deadly weapons that we will introduce below, it is the best choice. Weapons: Choosing the right weapon will undoubtedly impact the game, so that you can tell whether you will be able to proceed further in the hack or not. Almost everything depends on the weapon that you choose to carry. Each choice has its advantages and disadvantages, which we will highlight below. N-G, we are going to directly go over the necessary information. Many people believe that the weapon is the best choice for fight, but in reality they are wrong. Not only is the
