Bootit V1 07 Download __EXCLUSIVE__

Download

Microsft flash drive treated like a CD drive. Check what we see in this BootIt: BootIt v1.07.zip. BootIt.exe; readme.txt; BootIt.dat. Download the file - link to . /www.bootit.ru/files/bootit-1.7_win.zip, where it says under the name bootit-1.7_win that the file is a CD containing an executable written in Visual Basic. As you can see, it's no big deal. You can use it to create a bootit and burn it to a CD/DVD. Now look at the following BootIt entry: BootIt v2.0b.exe; readme.txt; BootIt.dat. Note that it says CD drive here, too! This time, there really is a CD drive.
